MARJOMOTEX MASKS

WATER REPELENCY FINISHING
GET RID OF WATER AND DIRT

Lotus-Effect ®
Self-cleanning
Easy-to-clean
Fluorocarbon free

This finishing is carried out in garment and can be done in all types of fibers. It can be performed in hospital gowns, masks, outer apparel, bed linen, etc. It's a finishing with self-cleanning properties, since water and dirt do not adhere to the textile. This finishing also provides easy-to-clean properties, i.e., more efficient washes, once the stains are easier to remove.

ANTIMICROBIAL FINISHING
GET RID OF MICROORGANISMS

Approved product
Oeko-tex Standard 100

Product in compliant with REACH

This finishing is carried out in garments and can be done in all types of fibers. It can be performed in hospital gowns, masks, T-shirts,bed linen, etc. It's a finishing that provides long-lasting hygiene, it's sustainable (without silver particles) and without toxicity to humans.
This treatment is at the forefront in preventing nosocomial diseases (nosocomial infections) and has been tested for gram-positive,gram-negative, multi-resistant bacteria and fungi (Candida albicans and Candida glabrata). The active ingredient is BKC (benzalkonium chloride), approved by the World Heath Organization.
